PROFILE

Economics postgraduate specialising in data-driven consumer insights. I combine econometric and statistical modelling, from regression and Bayesian simulation to forecasting and causal inference, with survey research and hands-on experience in database management, competitive intelligence and content strategy. I work across the analytics stack (Python, R, Stata, SQL, Power BI, Hadoop and Spark) and I'm used to turning statistical findings into recommendations a business can act on. My background spans market research, data analytics, SEO and stakeholder communication, and I turned down a Senior Content Strategist offer in FMCG to complete an MSc in Economics (Data Analytics).

TECHNICAL & ANALYTICAL SKILLS

Programming	Python (pandas, NumPy, statsmodels, scikit-learn, matplotlib, seaborn), R (tidyverse, ggplot2), SQL, Stata, SPSS
Big data & BI	Hadoop, Spark (PySpark), Power BI, Advanced Excel
Statistical methods	OLS and logistic regression, panel data, ANOVA, Bayesian simulation, survey design and econometric modelling, thematic analysis
Forecasting & ML	Time-series forecasting, out-of-sample model evaluation, gradient boosting, random forests, clustering (UMAP, HDBSCAN)
Causal inference	Difference-in-differences, regression discontinuity, synthetic control, fixed effects, bootstrap and randomisation inference
Marketing platforms	Google Analytics, HubSpot, Mailchimp, WordPress, Canva, SEO/SEM, HTML/CSS

CORE COMPETENCIES

Data analytics & statistical modelling	Forecasting	Causal inference	Survey design	Market research & consumer insights
Database management	Data visualisation	Competitive intelligence	Copywriting & content strategy	
Brand & campaign development	SEO/SEM & email marketing			

DATA ANALYTICS & CONSUMER RESEARCH PROJECTS

Trial, Trust & Subscription: India's Streaming Market | MSc research paper 2024 – 25

OLS • logistic regression • Bayesian simulation • Python • Stata • n = 150 Gen Z consumers

- Designed and ran a primary consumer survey, then built OLS and logistic regression models in Python and Stata to estimate willingness to pay and predict subscription conversion.
- Used expected utility theory and Bayesian learning to show that trial length and perceived quality drive demand, which points directly to freemium product and pricing decisions.

Market Positioning of Tata Motors: Consumer Behaviour & Choice | BA dissertation 2022 – 23

ANOVA • regression • survey design • n = 167

- Collected and modelled survey data with ANOVA and regression to map what drives brand preference and switching across vehicle segments.
- Turned the results into recommendations on positioning and on how messaging should differ between segments.

Trans-Inclusive Advertising & Lived Experience | BA seminar paper 2021 – 22

Mixed methods • thematic analysis • 15 in-depth interviews and 100+ surveys

- Combined thematic analysis of interviews with survey data to test how trans-inclusive advertising affects self-perception, and found a gap between visibility in ads and real impact on consumers.

More work, including forecasting, causal inference and machine learning projects in Python, is on [GitHub](https://github.com) and at anshiundefined.github.io.

EXPERIENCE

Freelance Marketing Consultant | Freelance • Remote Jan 2024 – present

- Independent work across restaurants, cafés and NGOs, including copywriting, target audience analysis, and survey design and execution.

Marketing Officer (Content Strategy, Analytics & Database Management) | Kaizen Pharmaceuticals (Pvt.) Ltd., Chandigarh Dec 2023 – Feb 2025

- Analysed pricing trends and consumer sentiment across 30+ SKUs to produce competitive intelligence reports for leadership.
- Found positioning gaps in competitor communications through comparative analysis, feeding into messaging and promotional planning.
- Built and maintained performance databases, tracking reach and engagement to measure campaign effectiveness and guide content strategy.

Marketing Associate | Garuda Insurance Broker Private Limited, Gurugram Jun – Dec 2023

- Ran primary and secondary research across service and digital sectors, analysing data to map engagement and retention patterns.
- Turned research into data-backed client presentations and internal strategy briefs, and supported client relations.

INTERNSHIPS

Market Research Intern | HKRP Innovations Limited · Part-time May – Aug 2026

- Carried out secondary market research and competitor analysis across industries, and prepared market intelligence reports and brand positioning reviews.
- Helped design surveys, collect data and analyse audiences to support campaign planning and business development.

Trainee | EY · Hybrid Jul – Aug 2022

- Researched global macro, industry and regulatory trends and wrote structured, data-driven reports for consulting teams.

Marketing and Business Development Intern | DLF Home Developers Ltd. Jun – Jul 2022

- Supported client acquisition, database management, field visits and business proposals.

Social Media Marketing Analyst Intern | Embtel Solutions Inc · Remote Nov 2021 – Jun 2022

- Supported social media analytics, digital content production and campaign messaging.

EDUCATION & CERTIFICATIONS

MSc Economics (Data Analytics) | Symbiosis School of Economics, Pune 2025 – 2027

BA (Hons.) Liberal Arts | Symbiosis School for Liberal Arts, Pune · Majors: Business Studies; Economics & Media 2019 – 2023

Certifications: Big Data Management and Analytics (Microsoft) · Introduction to Data Science in Python and Applied Text Mining in Python (University of Michigan) · SQL for Data Science (UC Davis) · Meta Marketing Analytics (Meta) · Social Media Data Analytics (University of Washington) · Market Research Methods & Data Analysis (Coursera)

LEADERSHIP & COMMUNITY

- **Student Head & Chief Editor**, Queer Qrew + Zeitgayst (SSLA, 2020 – 2023): led editorial strategy and community programming for two student organisations.
- **Marketing Head**, Events Team & Business Development Cell (SSLA, 2020 – 2022): ran sponsorship outreach, event marketing and external partnerships.
- **Volunteer**: NSS (2017 – 19), GWP Charitable Fund (2021 – 22), Open Eyes Foundation (2023).
